## MASON'S PRAISES WILL BE SUNG BY AGENT KIRK

County Agent George Kirk Will Tell  
Agents of Kentucky That Mason  
County Plans to Be First Hol-  
stein County South of  
the Ohio.

County Agent George Kirk has been assigned a place on the program of the annual meeting of the County Agents of Kentucky which will be held in Lexington during the first of February and has been asked to tell something of the advance made in Mason county toward the establishment of a number of pure bred Holstein herds.

Mason county is the first county in the state of Kentucky to adopt the Holstein cattle as the particular breed in which they are most interested and it is the purpose of County Agent Kirk and those gentlemen who are interested in the Holstein to make Mason county a sort of feeder for the state of Kentucky and other states farther south.

At the meeting at Lexington Mr. Kirk will take the opportunity to tell the agents from the other parts of the state and all of those in attendance at the meeting something of the rapid strides Mason county has taken in the past few months towards the establishment of one special breed of cattle as well as one special breed of chickens for which the county will in a short time become famous.

From this meeting at Lexington and this opportunity offered Mr. Kirk to speak Mason county should obtain a large amount of free advertising in the manner that will do the county the most good and among the men we are anxious to know something about our forward steps on the farm.

### UNCLE BOB WILL PROTECT EAST ENCLERS FROM FIRE

Fire Chief Newell this morning sent the fire fighting machine "Uncle Bob" to the East End to protect property in that section of the city from fire during the high water. Water under the C. & O. bridge on Bridge street would make it impossible for a machine from the Central Station to get into the East end promptly. The "Uncle Bob" will be in charge of two firemen and stationed at the Planters Tobacco warehouse at Union street and Forest avenue.

## BAND BEGINS PRACTICE IN NEW HEADQUARTERS

Members of Maysville Boy's Band  
Have Begun Practice With Prof.  
and Mrs. Young as Instructors  
— Headquarters Now  
Ready For Work.

The new headquarters for the Maysville boy's band in the Capron building are now ready for occupancy. The entire third floor of the building has been carefully cleaned, redecorated and put in first class condition for the members of the band.

The first squad of youngsters to practice in the new quarters met with Prof. Young there this afternoon and were given some instructions about their instruments and given a lesson in reading music. It is the purpose of Prof. Young to have groups of boys to meet with him in these quarters every hour in the day after the school hours.

Personal work will also be done with the boys until they will show that they are ready for practice in a body when they will be gathered together for a few rehearsals before appearing in a public concert. Every possible effort will be made to have the boys ready for their first concert sometime during the last of March or the first of April and Prof. and Mrs. Young both promise a great surprise for the parents of the youngsters in the band.

### SILVER WEDDING ANNIVERSARY

Mr. and Mrs. S. Straus will quietly celebrate the twenty-fifth anniversary of their marriage next Tuesday and will be pleased to have their friends call at the New York store and receive a souvenir of the happy event. Mr. and Mrs. S. Straus wish it understood that they will not receive any presents, and that they will be especially pleased to have their friends call at the store.

Mr. and Mrs. Straus were married twenty-five years ago, January 7th, in Louisville, twenty-two years of which have been spent in Maysville, where they have many warm friends who will join with the Ledger in wishing them many happy returns of their wedding anniversary.

### PRICE OF LARD DROPS

The price of lard on the local market took a considerable drop this morning. It had been retailing at from 37 to 37½ cents and this afternoon County Food Administrator Cochran announces the retail price as 33 cents a pound.

## \$30.25 IS WEEKLY AVERAGE ON LOCAL TOBACCO MARKET

Supervisor Mitchell Reports 1,251,115  
Pounds Sold During First Week  
at Extraordinary Average  
of \$30.25.

The Maysville market closed its first week of the 1919 season Friday evening with all grades in big demand and prices soaring into figures seldom heard of before on the Burley looseleaf market in the state of Kentucky. Supervisor Mitchell's weekly report on the market follows:

Maysville, Ky., January 3, 1919.—The Maysville looseleaf Tobacco Market closed for the week after a three days sale in which a total of 1,251,115 pounds of tobacco was sold at a general average of \$30.25. The high price for the three days was \$70 and the low price \$10.

The market was strong on all grades and especially the bright ones on which there seems to be no limit in price. The offering for the week was largely of a poor quality, the most of it being parts of small and late crops. We are looking for much better quality for the next sales. There is plenty of room at all houses. Sales open Monday morning at the Home and Farmers houses.

W. MITCHELL, Supervisor,  
Maysville Looseleaf Market.

Lexington, Ky., January 3.—The total amount of tobacco sold on the Lexington market today was little below the record made by the sales Thursday and Wednesday, and the average price for the day, higher than any previous average, was \$39.39 for the 1,192,566 lbs.

Augusta, Ky., January 2.—The local market opened today with \$25,000 lbs. of average tobacco on sale, divided among the three warehouses as follows: Planters, 179,000 lbs.; Farmers, 110,000 lbs.; Burley, 43,500 lbs. Prices ranged from \$16 to \$66. William Grange sold 2,100 lbs. privately at 50c per lb. This was his entire crop.

Carrollton, Ky., January 3.—On the Carrollton loose leaf market today, 182,050 lbs. were sold, average \$27.86, one house averaging \$29.96.

Frankfort, Ky., January 3.—The tobacco sales here today totaled 135,215 lbs. at an average of \$30.08 per 100 lbs. The price ranged from \$60 per 100 down. The offerings were not the high grades of previous days. The market is good.

Flemingsburg, Ky., January 3.—The Farmers' Warehouse sold today 30,000 lbs. of tobacco. Growers sold 32,000 lbs. and the Burley sold 32,500 lbs. at an average of \$31.05. Medium grade of tobacco.

Huntington, W. Va., January 3.—The tobacco market closed for the week today strong on all grades. The day's sales were approximately 125,000 lbs. at an average price of \$33.51 per 100 lbs.

Mt. Sterling, Ky., January 3.—Tobacco market closed strong today at the Farmers' House, where there were sold 145,000 lbs. at 10c to 58c. Whitehall completed sales of 206,065 lbs. which brought good prices. Robertson House sold 90,975 lbs. Receipts coming in heavy.

### POLICE FORCE BADLY CRIPPLED

The city police force was badly crippled Friday evening when Night Sergeant James Mackey and Patrolman Dudley Bloomfield were both taken ill. Patrolman Drennan was called to the Sergeant's desk and Officer Tolle was the only regular policeman on duty although Chief Ort remained on the streets the most of the night.

### INTERESTING P.T.A. MEETING

A very interesting meeting of the Parent-Teacher Association of the Forest Avenue School was held Friday afternoon. A number of the parents of the school were present and the High School History teacher gave a very interesting talk on her trip from Europe at the beginning of the world war in 1914.

### OHIO TOBACCO IS NOW CUT OFF

The river has reached such a stage that it is impossible to unload tobacco wagons from the ferryboat and the delivery of all tobacco from the Ohio side of the river has been cut off for several days. The ferry is now landing at the railroad near the foot of Ma-

## RIVER IS NEAR THE FLOOD STAGE IN THIS DISTRICT

Crest Is Expected to Reach Maysville  
By Sunday Morning—May Go  
Slightly Beyond the Flood  
Stage of 50 Feet.

At three o'clock this afternoon the government gauge at this point registered 45.1 which is just .9 of a foot below the flood stage for Maysville. It is expected that the stream will reach the flood stage this evening and will continue to rise probably more than a foot before the crest is reached sometime tomorrow morning. Indications are that it will not go far beyond 51 feet.

District Weather Forecaster Devereaux this morning predicted that the crest of the flood at Cincinnati would be 53 feet Sunday evening. It is thought that the stream should be falling by Monday morning or night. The Pittsburgh rise has passed Parkersburg and the river from that city to Pittsburgh is falling. The crest of the Kanawha rise is between Huntington and Maysville.

The water has crept through the "hole" in Bridge street and the Street Car passengers are now transferring.

### HIGH CLASS BAND INSTRUMENTS

Messrs. J. B. Russell and Allan Wood are in receipt of two of the latest model c. G. Conn. Victor Wonder Cornets, in artist's finish, gold trimmed and the exclusive model adopted and furnished by Mr. Conn of Elkhart, Ind., for the Great Lakes Naval Training Station Band of a thousand pieces, under John Philip Sousa. Also John Burwell and William Ellis each have clarinets of the same type and model. These instruments are undoubtedly the best that money can buy, and for tone, and workmanship, they have no equal. They are to be used at once, as part of the excellent equipment of the Maysville Boys' Band, just starting.

The remainder of the instruments are being looked for on every train. The Band room is practically ready, so Mr. Young hopes to be able to get all the sections working next week. He also hopes, if at all possible, to have the band play in public soon and can use a few more parts if boys will apply at once at the Chamber of Commerce.

We have at our disposal a high grade player piano which we would like to place in the home of a reliable party for the storage. If you are interested, see the

## MAYSVILLE MAN DELEGATE TO NATIONAL CONVENTION

Captain C. M. Phister is Named One  
of Six Kentuckians as Delegates  
to National Waterways Con-  
vention at Pittsburgh.

President John L. Vance, of the Ohio Valley Improvement Association, has named delegates from the states of Pennsylvania, Ohio, Kentucky, Indiana and Illinois to the annual meeting of the National Waterways Association which will be held in Pittsburgh next week and among the six Kentuckians named is Captain C. M. Phister, of this city.

Captain Phister has been associated with President John L. Vance ever since the Ohio Valley Improvement Association was organized and has been active in every movement for the improvement of the waterways of the nation. His selection as a representative from the state of Kentucky at this great national meeting is quite an honor and shows the high esteem in which he is held in Ohio river circles.

Captain Phister is now on his farm in Ohio but it is more likely that he will accept this great honor and attend the national convention next week.

### WARMER WEATHER PREDICTED

Chicago, January 4.—The cold snap will be broken by Saturday night in the whole territory west of the Mississippi river as well as Illinois, according to the weather forecaster. With a minimum of 8 below zero in Chicago Friday two deaths were attributed to the cold.

Although there was no relief from the severity which reached such figures as 35 degrees below zero in Mitchell, S. D., and from 15 to 22 degrees below in Nebraska, the temperature is expected to rise slowly Saturday in the western half of the country.

We have at our disposal a high grade player piano which we would like to place in the home of a reliable party for the storage. If you are interested, see the

### RICHARD SPANIARD PIANO CO.

Mrs. B. E. McClure left yesterday over the L & N. to join her husband at Shelbyville, Ky., where they will make their home during the tobacco season.

Rucker Tolle has returned to his home in Harrison county after spending the holidays with his grandmother, Mrs. W. A. Tolle, of East Second street.

Our floors are cleared and ready. Come on with your tobacco.

## MILITARY FUNERAL WILL BE GIVEN TO SGT. W. I. NAUMAN

Mason County Soldiers Requested to  
Join Military Escort—Salute Will  
Be Fired and Taps Played.

The announcement is made that the

funeral of Walter Nauman who died while in the service of his country at Camp McClellan and which will be held Tuesday afternoon will be observed with military ceremony. A military escort will accompany the body to the grave where a salute will be fired and taps blown.

Inasmuch as this is the first time that an occasion of this sort has arisen and because of the high standing in which Mr. Nauman was held in our community it is requested that all men who have been in the national service during the present war, whether mustered out or not, and men who are veterans of former campaigns will attend the funeral in uniform and if possible accompany the remains to the cemetery. Those who wish to show this final courtesy to their lamented fellow citizen and brother in the service are asked to assemble at the Chamber of Commerce Tuesday at 12:45 from where they will march to the funeral.

The body will not arrive until Sunday afternoon over the C. & O. Funeral will be held at the Third Street M. E. Church Tuesday afternoon at 1 o'clock.

### JANUARY MEETING

The King's Daughters of the Episcopal Church, will meet with Mrs. Louise Bendel on Monday afternoon at three o'clock. As this will be the first gathering of the society in the New Year, a full business schedule will be carried out after which, a social hour will be enjoyed.

### NOTICE

All persons having bills against the estate of Archie Lewis, deceased, present them to me properly proven for payment. Any one owing the said estate please call and pay same.

NORA B. LEWIS, Administratrix;  
Maysville R. D. No. 1  
Harry C. Curran, Attorney.

Dr. T. H. N. Smith is confined to his home on East Second street with pneumonia.

Our floors are cleared and ready. Come on with your tobacco.

## PRESIDENT WILSON VISITS POPE WHILE IN ROME ON VISIT

President and Pope Benedict Confer  
On Church's Attitude Toward  
Peace Settlement.

Rome, January 4.—The visit of President Wilson to Pope Benedict at the Vatican today was regarded as one of the most important events of the president's Italian visit.

It was believed a clear understanding would be reached regarding the church's attitude toward vital principles of the peace settlement.

Previous to his audience with the pope, the president conferred with Cardinal Gasparri, papal secretary of state, regarding certain angles of political subjects that later were taken up with the pontiff.

The president went to the Vatican direct from the American embassy, where he had lunch with Ambassador Page. This was in deference to the relations between the Vatican and the Quirinal which made it desirable that the president should proceed to the Vatican from American rather than Italian territory. The embassy, of course, is regarded as being on American soil.

The president visited historical spots today and laid wreaths on the tombs of Emmanuel II and King Humbert. He was shown about the Pantheon, the Roman forum, and went to the Academy Luce.

After his audience with Pope Benedict the president received a delegation of Protestant bodies.

During the afternoon he conferred with Premier Orlando, cabinet members and other Italian leaders. The formal program of his visit in Rome closed tonight with a dinner at the Quirinal.

### BABY MARTIN

Born to Mrs. Leslie J. Martin on Friday at the home of her parents, Mr. and Mrs. R. Lee Bramble in East Second street, a fine baby daughter. The father of the little Miss, Sergeant Major Leslie Martin is now in the American Expeditionary Forces.

### MUCH DRIFTWOOD IS PASSING

The swollen Ohio has been filled with driftwood today and a number of Maysville and Aberdeen people have been taking this opportunity of laying in a supply of fire wood.

## OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

## WORTH THE PRICE

Just by way of appreciation of what the world has escaped, suppose for a moment that the German plan of world empire had been carried out successfully, and that Germany today was dictating the terms of peace.

Would King Albert of Belgium be back in Brussels?

Would stricken Roumania be holding her head up once more with a smile of hope?

Would devastated Serbia be gathering together the remnants of her former government and preparing to rebuild her burned homes?

Would the Venetians be bringing back to Venice the art treasures they hurried away when the Austrian advance crossed the border?

Would France be publishing over the probable early restoration of Alsace-Lorraine?

Would England have the Union Jack floating from every flag pole in the land and Harwich harbor full of docile German U-boats?

Would Russia be freed of the terms of the atrocious Brest-Litovsk treaty and at liberty to reorganize her government along the broadest lines of liberty?

And would Uncle Sam be preparing to go out and pick the juiciest plums in foreign commerce or would he be arranging to pay a \$40,000,000 indemnity and to bow to the kaiser's yoke for the next half century?

And what of the world at large? Would it be rejoicing today at the prospect of unfettered democracy and liberty? Not if the kaiser retained his facilities, for the kaiser had planned a little privately managed world protectorate with the world paying substantial tribute to the new Germany.

It cost the allied nations something more than \$100,000,000,000 to escape this fate, not forgetting a tremendous blood toll, but it was worth it, and if Uncle Sam is compelled to add a few billion more to round out his obligation his independence will be cheap at the price.

So get ready to buy his next bond issue.

## THE DOCTORS

In the middle of the eighteenth century "the physicians carried medicines and little scales and weighed out their prescriptions at the ruffled shirt fronts and demanded great respect as professional men beside of their patients. They wore pigtailed powdered hair and they were reverenced almost as much as the pastors and their very appearance in a sick room seemed to have a medicinal effect." And yet, with all this precaution and faith people died then quite as much as they do now. Possibly the would have died more if it had not been for the "pigtailed powdered hair and ruffled shirt fronts," which seemed to have a favorable influence upon the patient. It is certain these things do have a curative effect. The Indians knew that years ago. If it was a good thing then, it would be so now, and so we suggest to the profession if it would do its best for suffering humanity it would appear in the sick chamber wearing pigtailed powdered hair and ruffled shirt fronts. If our family doctor will only adopt this custom we promise him we will do our best to get well.

We hear the girls speak highly of Georgette crepe that we often think we'd like to meet her personally—Ohio State Journal.

## NEEDLES WERE NEPTUNE'S BUST IN OHIO VALLEY

Wonderful Knitting Work Done in Three States—2,000,000 Articles.

Cleveland, January 2.—From October 1, 1917, when the Red Cross knitting programme was begun, to December 26, 1918, when Red Cross chapters were officially notified to discontinue issuing yarn to knitters, women in Ohio, Indiana and Kentucky knitted more than 2,000,000 articles for soldiers and sailors and for civilian sufferers abroad, according to a report issued by the lake division, Red Cross, here today.

From October 1, 1917, to January 1, 1919, 1,376,912 knitted articles had been received at the lake division warehouse in Cleveland mainly from Ohio chapters. From October 1, 1917, to December 1, 1918, 287,567 knitted articles were shipped into the lake division warehouse at Indianapolis, principally from Indiana chapters. From October 1, 1917, to December 1, 1918, 387,599 knitted articles were received at the Cincinnati warehouse from Kentucky and Southern Ohio chapters.

### THE YEAR 1918

Hark! 'Tis the tolling of bells I hear  
A death, ah yes, that of the old year  
Nineteen hundred eighteen is breathing its last.  
In this parting hour let us look over its past.

What did it bring this bygone year?  
Joys to many—many a tear,  
In the year that now has ceased,  
We passed from the world's war into peace.

Deep from our hearts on Christmas night  
Echoed the carol of the angels bright.  
The carol they sang in Bethlehem  
Tells truth there's peace on earth again.  
After years of bloodshed and war;  
Victory is ours and the war is o'er.

This should fill our hearts with gratitude deep  
Though tears fill our eyes thinking of those who sleep.

Yes, we must think of the cypress leaf,  
Interwoven with the holly wreath.  
For many thousands who were here,  
At the birth of this dying year.

Now he sleeping that long, long sleep.  
In their last resting place, the grave so deep.

The Reaper Death with his cruel scythe  
In his harvest claimed many a mother and wife.

Fathers, husbands and children not few,

Brothers and sons by the thousands too.

Nineteen hundred eighteen what hast thou done?

Sadened the hearts in thousands of homes.

Ye who have passed through this grief and sorrow,

Cheer up, look forward toward a happy tomorrow.

Though often, in grief, we doubt 'tis God from above;

Who would strengthen our faith, comfort us with His love.

We, who in this epidemic were spared,  
Let us be grateful thank God in prayer.

When danger and distress were near  
He kept us safe throughout the year.

Now the old year is gone—Ring in the new,

Though we know not what it holds for me or for you,

God will protect us, let's be of good cheer

And wish all a happy and prosperous year.

MRS. H. J. KAHNE.

## HOG CHOLERA LOSSES ARE STEADILY DECREASING

Secretary Houston Tells Advantages of State Cooperation in Eradicating Destroyive Animal Disease.

Washington—Losses from hog cholera declined greatly in the four years 1914 to 1917 and a further reduction is expected for 1918, says a letter from the Secretary of Agriculture to Addison T. Smith, a member of the House of Representatives.

The Secretary calls attention to the necessity for the State cooperation in the Federal Government's campaign against this destructive animal disease.

"Estimates obtained from State authorities during November and re-

ports from our inspectors in charge of hog cholera work," says the Secretary, "indicate that there will be a further reduction of losses from the disease during the present year (1918) except in New York, Pennsylvania, and Washington, where no cooperative work is being conducted by the department. The monetary loss, however, will still be great owing to the increased value of this class of farm animals over that of previous years.

"A recent article, in which conditions in Iowa are discussed, indicates that the number of hogs lost in that State from cholera in 1914 was approximately 3,000,000, while the losses for 1917 amounted to less than 200,000.

Conditions in Iowa, however, have been more favorable to the efforts of the cooperative forces engaged in hog cholera control work in that State during the last two years than previously.

"The reduction of losses has been less in certain other States due largely to circumstances which have handicapped our efforts in controlling the disease. We can not hope to be so successful in States where hogs have access to open ranges in such localities where, herds are restricted to the premises of the owner and kept away from sources of contamination."

## UNITED STATES SELLS 200 MOTOR TRUCKS

Fifteen Hospitals Will Be Sent to Stricken Armenia.

The United States Government, which is aiding in every way the work of the American Committee for Relief in the Near East (formerly the Armenian and Syrian Relief Committee), has just given out the information that it will turn over to the committee for a nominal sum fifteen American Army hospitals in France and two hundred

within a short time. Wheat was plentiful in a district not far away, but there were no facilities for transporting it to the starving sufferers.

For this reason the committee has purchased the 200 trucks from the American Government, and plans to buy more from the British Army, which, though impeded by the necessities of military operations, has greatly aided the distress in the Near East.

As a consequence of malnutrition, sickness is rife in many communities throughout the Near East. Diseases which the people could resist if they were adequately nourished have taken root throughout all this territory on account of the wasted bodies of the whole population. Representatives of the committee report that aside from starvation the sanitary conditions are revolting and that children go un-

Could any scene be more repulsive to well fed Americans. These weary travelers, driven miles from their homes, are happy to get a share of a dead animal's flesh.

motor trucks, no longer needed since the signing of the armistice.

Each of these hospitals contains 100 beds and complete equipment except for kitchen utensils. The buildings in which these hospitals will be housed in the Near East have been erected. With the hospital equipment the committee will purchase large quantities of medical supplies which have been stored in France to safeguard the health of American soldiers. These supplies will be rushed to the Near East from a French port.

Careful surveys of the situation in the Near East indicate that lack of transportation facilities is the chief cause of famine. There is food enough to keep the inhabitants from starving, but it cannot be distributed to supply 62,000 square miles of country. There are only 90 miles of railroad. Consequently there is plenty of food in some sections of the country where food is grown, but great distress in those which are not self-supporting. In the cities especially there is great need. On one occasion wheat became scarce in a community in Persia that the price increased 1,200 per cent.

bathed for indefinite periods on account of the scarcity of soap and that the population is ridden with sores.

Every day more moving appeals come from distressed Armenia, Syria, Persia and the Russian Caucasus.

Tens of thousands of people are as gaunt and hungry as those gathered around the dead horse in the accompanying picture. Many have been without food for days. An Associated Press dispatch from Salonika of recent date (December 16) reports that of the 2,000,000 Armenians deported by the Turks only 400,000 survived and that not more than one-fourth of the present Armenian population can survive until the next harvest without outside help.

Distressing as seem these reports, it is encouraging to know that even causes of advanced emaciation, such as are shown in this illustration, readily respond to treatment. With food and medical care millions can be made strong and healthy. Thirty million dollars, the sum to be sought in the January 12 to 19 drive, will help save 4,000,000 lives. Considered only as an investment, it should be worth while.

ADMISSION 15c and 25c

## RESUMPTION OF INDUSTRIAL ACTIVITY IS A BIG PROBLEM

New Year Finds Big Problem of Industrial Activity Facing the World.

The problem confronting the country is not one of resumption of industrial activity, but of the transfer of activity to other lines. The plants and other facilities are at hand, but new or changed equipment will be necessary, and, of course, markets must be built up for the new products.

Some of the effects of the war will be of a permanently favorable character. The public has been educated as never before to the possibility and advantage of saving; and the existence of other means of saving than through savings bank deposits. The Government has issued an immense amount of Liberty bonds, and will make at least one more issue. These bonds have been taken in small denominations by small investors, many of whom never owned a security of any kind before. It is reasonable to assume that many of these will continue to save, and to invest a portion of their savings in bonds. This will bring a change in the attitude of these small investors toward corporations, and will do much to lessen the present altogether artificial and unwarranted hostility between labor and capital.

The first of our troops have returned from the European battle-line, and the movement will continue steadily, though slowly, until all have returned and have been mustered out. These men will resume the normal occupations of peace, which will mean a large increase in the supply of labor, as compared with the existing conditions. For some years to come it is probable that immigration will be greatly curtailed. The countries of Europe have lost so great a percentage of their workers that they will discourage emigration, while the United States is likely to enforce even more stringent regulations in order to keep out foreign labor. If this country is to increase its production, therefore, it will have to do so through increased efficiency, either of the individual workers or of machinery. There are indications that the labor interests of the country, in part at least, purpose to resist any reduction in wages, without regard to the general conditions. It is hardly believable, from the eco-

nomic standpoint, that wages can be maintained indefinitely at the level brought about by the extreme shortage of labor due to the war.

As the men return from the service of the United States to normal industrial activity, and the supply of labor increase, the tendency of wages will be downward, despite any attempt to maintain them by artificial means. Innumerable attempts have been made to abrogate the law of supply and demand, but with no success. The workingmen wish to maintain the present wage scale, because of the high cost of living, an argument which has great force, and an undoubted basis in fact. On the other hand, the high cost of living is ascribed with truth largely to the high schedule of wages.

A solution has been suggested by a high official of the United States Steel Corporation which gives some promise of success. He calls attention to the fact that the iron and steel industry is considered the basic industry of the country, and that any change in prices of these products is promptly reflected in all other industries. If the iron and steel industry, therefore, should reduce the prices of its products, while maintaining the present scale of wages, prices of other products would decrease, the cost of living would be reduced, and then wages could be reduced in proportion, without placing any burden upon the wage-earner. This, of course, would mean a considerable temporary reduction in profits for companies in the industry, but as producers of iron and steel products have been extremely prosperous they probably could afford to do this better than most industries. The movement toward readjustment must begin somewhere, and this would appear to be an excellent starting point. Such a policy might prevent a serious collapse of some future day, when the present artificial structure ceases to perform its functions.

In those State where women vote it must create in Friend Husband a feeling of extreme latitude when he pays Friend Wife's poll tax and she afterward lines up with the opposition and votes against his crowd.—Macon Telegraph.

ATTENTION OF  
WORLD TURNED TO  
RECONSTRUCTION

Victory Is Won and Men's Eyes Turn  
From Casualty Lists to the  
New Year 1919.

London—The victory has been won, and men's eyes now turn not to casualty lists and communiques, but to the future; to reconstruction.

The world has radically changed in the last four years. The dead are many, and among the living the careers of innumerable men have been interrupted; Jads from school have gone straight into the army and have not yet started careers. The problems that face us are manifold out of the welter of destruction which William Hohenzollern brought upon the world, there emerges one thing which, born amid the shriek of the shrapnel, now begins its career of helpfulness and beneficence to mankind. Ere the gates of Janus are closed there from the portal aircraft.

The aeroplane, and likewise its sister, the airship, has in the stress of war passed from the stage of experiment and has become one of the things which in the future must probably modify the life or mankind. No more will aeroplane and airship drop bombs on railways, on gun emplacements, or on lurking submarines. For the future their tasks will be commercial and future their tasks will be commercial and productive. They will carry mails, they will be express messengers, they may soon convey an important passenger traffic from place to place, they will be explorers, surveys, scouts for the fishing fleets, the St. Bernard dogs of the ocean and the wilderness.

Ships in distress at sea, survivors adrift in boats, explorers lost in tropical wilds, perhaps even those stranded in the polar ice will turn their eyes upward for a sight of the questioning aircraft which will bring them succor and safety. The trawlers will learn the whereabouts of shoals from men trained to peer into the depths for U-boats. In the spacious parts of the earth it will be possible to locate forest fires or wandering herds of cattle, and so take action at once when speed is all important.

The man who has learned to know the air, who understands its infinite possibilities, who is familiar with aircraft and their engines, that man, in both senses, will have the world at his feet.

772 CONVICTED FOR BREAKING WEST VIRGINIA DRY LAW

Charleston, W. Va., January 3—According to information given out by the State Prohibition department, 772 persons have been convicted in West Virginia, in the last six months for violation of the Yost law. Confessions in the last six months included 3,707 quarts and 17,201 pints of whiskey and 14,749 gallons of wine.

The readers of the so-called popular magazines are now entitled to a rest, we submit. As the war is over, it is time to suppress the correspondents who get worked up to such a fury, writing about themselves.—Columbus Record.

T. J. Hill and family spent one day with Mr. Theo. Henson not long since.

Mr. George R. Dillon had the misfortune of having his arm thrown out of place while breaking a bolt.

Miss Gladys Henson has returned home after spending the holidays at Washington.

Mr. Joe Rigg has delivered his tobacco.

Miss Lizzie Cloud Woodward spent one day last week with Lena Henson.

The Slim Feiners have swept Ireland, carrying Connaught, Munster and Leinster, but as they will not take their seats in Parliament and half of those elected are in jail, it seems nothing to get excited about.—Nashville Tennesseean.

The BOLSHEVIKI IN AMERICA

(Written by Norman Hapgood for the National Security League)

The only way to check Bolshevism in the United States is to keep it from having any soil to grow in. An observer who has been in Europe as much as I have since the war began, will have very little belief in repression.

Bolshevism is a threat not only in Russia, Germany, and Austria but in several other countries where the people are not fundamentally expressed by their governments. On the other hand, it is not a threat in England. There, the two old parties have traditionally yielded to popular demands in proportion to the need of yielding, and the new Labor Party is well equipped with experts and as well able to govern as either of the old parties, so there is no possibility of Bolshevism getting a start. Imprisoning people, preventing their publications, and breaking up their meetings will most assuredly increase the growth of Bolshevism. For the dominating parties to put into law all the reasonable aspirations of the people, thus keeping up with the times politically and economically, is the only preventive.

Life is nothing but one anticipation after another. First we look forward to Christmas, and next to the first pay day following.—Knoxville Journal.

## WHAT'S THE REASON?

Many Maysville People in Poor Health Without Knowing the Cause.

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from earwaxiness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble. Look to your kidneys, assist them in their work—give them what they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Maysville.

Mrs. W. A. Schatzmann, 605 East Second Street, says: "From the benefit I have received from Doan's Kidney Pills, which I buy at Chancellor's Drug Store, I have every reason to recommend them. Whenever my kidneys have been irregular in action or I have suffered from weakness and lameness in the small of my back, I have used Doan's Kidney Pills. They have always proven sufficient to quickly cure and attack."

Mrs. Schatzmann is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Schatzmann uses—the remedy backed by home testimony. See all stores. Foster-Milburn Co., Proprs., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

## WEEK OF PRAYER SERVICES BEGGIN NEXT MONDAY

The week of prayer services will begin on Monday evening and continue every evening during the week. The first of the services will be held at the Second M. E. Church, South, in the Sixth Ward. Dr. B. B. Bailey will preach at the first service. A large number of people should attend one of these services.

## OLD FLAG IS REPAIRED

The large American flag which occupies an honored position in the center of Market street and which is very carefully looked after by Policeman P. Ryan met with an accident a few days ago when it was very badly torn on the flag pole. The old rag had been mended now and is again floating to the breezes.

## CONVICT SHIP SUCCESS IS WRECKED AT WHEELING

Wheeling, W. Va., January 3.—The British convict ship Success, said to be more than 100 years old, was wrecked in the flood of the Ohio river here today. The rising waters tore the vessel from its moorings and threw it against a steel pier of a bridge, snapping its three masts and sinking it in shallow water.

## SEVERAL ATTEND RIPLEY OPENING

The opening of the 1919 season on the Ripley tobacco market was held yesterday and a number of Maysville people were present to see the market get started. Prices were said to have been good and the quality of the leaf offered fine.

## SAM STAIRS' FUNERAL HELD SUNDAY

Second and Market Streets

## THE HOME

## Leads All Others in Pounds Sold and Price Obtained on Opening Market

As usual, the Home had the most tobacco under their roof when the bell tapped for the opening of the 1919 loose leaf tobacco sales, Wednesday, and when the buyers reached that house, yesterday, it was found that the Home was going to establish another record by selling the highest priced crop of tobacco ever sold on the Maysville market.

The sale started in this house with the crop of D. E. Bell, of Fleming county, and it brought a higher average than was ever before obtained for a crop on this market. Several baskets brought 75 cents per pound, and the crop averaged \$62.39. This is sure "going some" for Burley tobacco. Had any individual predicted such a price as this, some years ago, he would have been counted crazy. We hope to see higher ones, but believe this record will stand for a while. The Home is the house that makes records, and they should be very proud of this one.

Their ever alert, energetic and polite sales manager, Mr. Albert T. Day, was smiling all over himself yesterday, and says he means to keep it up throughout the season; because, he knows the Home will continue to lead in pounds sold and prices obtained.

He is ably assisted, this year by that prince of good fellows and best of all auctioneers, Mr. R. G. Rucker. If that team don't get you the top of the market for your tobacco, you will know that you do not deserve it. They are wide awake and never fail to make every basket bring every cent it is worth. Sell at the Home if that is what you are looking for.

## MICHIGAN HOUSEWIFE

## Tells How Vinol Made Her Strong

Bronson, Mich.—"I took Vinol for a weak, run-down condition, and backache and had to keep up and do my housework for my family of three. Vinol has improved my condition so that now I feel like a different person."—Mrs. Albert Rose.

The reason we recommend Vinol to our customers for such conditions, is because we believe it to be the most successful strength creator we know, containing as it does beef and cod liver peptones, iron and manganese peptones and glycerophosphates. The greatest of all tonics.

John C. Pecor Drug Co., J. Jas. Wood & Son, Druggists.

P. S.—Our Saxol Salve is truly wonderful for Eczema. Money back if it fails.

The Maysville Assembly Club entertained with a dance Friday evening which was greatly enjoyed by a large number of people despite the very cold weather.

## BIG CLEARANCE SALE OPENED TODAY

Merz Brothers' big January Clearance Sale was opened this morning in full blast. The big store is filled with rare bargains marked down at a very low figure and the people of this community are taking advantage of the bargains offered.

Rev. Worth S. Peters, wife and son of Maysville were holidays guests of the family of Dr. John F. Irvine. Every meal was a banquet, and every passing hour fraught with "a flow of soul and a feast of reason" during the time these two cultured families spent together. The night before Christmas, from some mysterious source a beautiful evergreen tree, artistically decorated, and loaded with useful and beautiful gifts for each and every member of the two families, found its way into the parlor, or its way was found for it, and this old time, Yuletide feature, contributed in no small degree to the happiness of all.—Tollesboro correspondent in Vanceburg Sun.

## MAYSVILLE'S CHURCHES

## Where the Religious Exercises Will Be Held on the Sabbath.

City Mission  
Preaching service Sunday afternoon at 2 o'clock.

Christian Science Services every Sunday morning at 11 o'clock in G. A. R. Hall, Cox Building.

First M. E. Church, South.
